GitHub

How to Access the NCAR GitHub Organization

Staff members can join the NCAR GitHub organization by following these steps:

1   Create a GitHub account if you don't already have one.

2   Log in to people.ucar.edu.

3   Go to the "Edit My Profile" section.

4   Enter your username in the "GitHub username" field.

You will be added to the organization within an hour.

Use of Github Copilot

UCAR Staff members can request a Github Copilot license on the NCAR Github Organization by submitting a ticket to help@ucar.edu / https://help.ucar.edu . There is a monthly cost associated with this license so you will need to provide an account key for the monthly chargebacks, along with your github username.

Please do not submit a request for Github Copilot through the Github interface - this method does not inform the organization admins which user made the request.
