

# NCAR HPC User Group

The NCAR HPC User Group (NHUG) advises CISL on current and future HPC systems, configurations and initiatives, including the need for training and workshops on current HPC software, tools, and technologies. All Cheyenne and Casper users are part of NHUG. We encourage you to join our monthly meetings. Details are provided below.

---

## Communication channel

We maintain [NHUG Wiki](#) to keep meeting agendas, minutes, and so on. This channel complements our user service offerings and is not a replacement for CISL [user support](#) services. During and before the meeting you may suggest discussion topics, ask questions or simply upvote topics posted by your peers on the [NHUG Slido page](#). You can also participate in more focused discussion by joining the [NHUG Slack channel](#).

---

## Monthly meetings

Members join in monthly meetings on the first Tuesday of each month from 9-10 a.m. Mountain time.

## Special interest groups

Special interest groups are subsets of members focused on common interests or goals. These groups form organically as per the needs at the time.
